

“MailFrontier told me that I would spend less than 10 minutes a week managing spam after installing the MailFrontier Gateway Server.

They were wrong.  
I only spend five.”

– Niall Pariag  
Senior Network Administrator

Riverside Health Care System, Inc.

“MailFrontier is so reliable, it just does its thing. I don't have to think about it, or spend time managing it.”

– Tom Hardin  
System Administrator for IDEO

## Awards

MailFrontier has won numerous awards, including:

## MailFrontier Gateway Server

MailFrontier is the leading provider of email security and compliance solutions that protect organizations against threats, such as spam, phishing and viruses; identify and enforce regulatory and corporate compliance policies; and enable consolidation of email infrastructure. The MailFrontier Gateway™ Server software solution revolutionizes email security for the enterprise by delivering a “no compromise” solution with the best protection, effortless control, and high performance.

## Best Protection

MailFrontier protects networks from all inbound and outbound email threats using MailFrontier Cognite™, an end-to-end email attack-monitoring system that identifies and stops email attacks.

- Anti-Spam
- Anti-Phishing
- Anti-Virus
- DHA and DoS Protection
- Internal Zombie Detection
- Time Zero Virus Protection
- Policy Management
- Compliance Tools
- Blended Threats

## Effortless Control

MailFrontier Gateway Server is designed to ensure simple configuration, easy customization, and automated maintenance, all through an easy-to-use Web-based administrative interface.

- **Quick Configuration** in less than an hour
- **Auto-Update** of all data and software
- **LDAP Integration** for authentication and user management
- **Streamlined Group and End-User Management** for grouping by organization, group, or mailbox or delegation of administration
- **Personalized End-User Controls** for optional access to junk boxes
- **Easy Auditing** of any email that has been routed through the system
- **Detailed Reporting** including information on attack types, solution effectiveness, and system performance

MailFrontier Gateway requires just minutes of administration each week, providing unparalleled ease in implementation and management.

## High Performance

MailFrontier provides high performance through its unique MailFrontier Preemptive Scanning MTA™ that offers breakthrough message analysis and industry-leading message delivery rates. Such a solution needs fewer machines to process the email load. MailFrontier delivers a solution that lets organizations consolidate email security while scaling to meet the size and performance requirements of the company.

## Customers

With just 10 minutes of maintenance a week, customer after customer has found MailFrontier's self-running, self-updating email security solution the easiest to manage.

## Partners for Complete Value-Added Solutions

Our select set of industry leading partners combine the strength of their products with MailFrontier to deliver complete email solutions.

## Comprehensive Email Solution

MailFrontier Gateway Server provides extensive inbound and outbound email protection which can be enhanced with the MailFrontier Power Protection™ module and the MailFrontier Compliance™ module.

### MailFrontier Gateway Server

- **Anti-Spam** — stops 98 percent of spam
- **Anti-Phishing** — provides a market-leading anti-phishing solution.
- **DHA/DoS Safeguards** — protect the network from deluges of email.
- **Policy Management** — enables inbound and outbound email policies at a company, business unit, geographic, and/or group level.

### MailFrontier Power Protection Module

- **MailFrontier Time Zero Virus Technology™** — guards the network prior to the availability of virus signatures with predictive methods and responsive techniques.
- **Virus Signatures** — protect from known viruses with the leading anti-virus engines from Kaspersky Labs and McAfee.
- **Zombie Detection** — captures outgoing spam, virus, and phishing attacks from infected machines within the network.

### MailFrontier Compliance Module

- **Intelligent Identification** — makes compliance easy by applying your compliance policies for inbound and outbound emails and using intelligent filtering to determine if an email violates a policy.
- **Monitoring & Reporting** — allows administrators to inconspicuously view compliance violations.
- **Encryption, Archiving & Other Enforcement** — provides a range of integrated enforcement options to meet compliance requirements.

### Seamless Integration

MailFrontier Gateway Server, MailFrontier Power Protection module, and MailFrontier Compliance module are all seamlessly integrated into the same easy-to-use Web-based administrative interface.

### Reduce Cost and Complexity

By providing comprehensive protection in one solution, MailFrontier enables enterprises to consolidate their email security infrastructure, reducing cost and complexity.
